It is important to avoid fretting, **STEP ONE Understanding the Universal Law** To understand miracles, we have to look at two aspects of the Universal Law. Look at doubt from above yourself. That is why adversity is so useful. The quality of these statements, or the coming in tune with yourself and your surroundings, is the key to your spiritual unfoldment. Everything that surrounds you has the Living Spirit within it in varying degrees. The more you come into contact with the Universal Law within you, the more you are in touch with things around you. Here are a few examples from which you can build: ✓I AM A POWERFUL, POSITIVE INDIVIDUAL, AND ALL EVENTS IN THIS DAY ARE FOR MY HIGHEST GOOD. This lifetime is yours. Second, most understanding of metaphysics is based on tribal or religious beliefs that do not totally reflect an accurate perception of the delicacy of energy and the way its ebb and flow affects daily life; no real understanding of the Universal Law has ever been incorporated into the various belief patterns of the world's collective unconscious. Believe in it. If you eat great amounts of heavy food, your energy slows, and the Universal Law within you has difficulty expressing itself. In this way, you establish a pattern of positive affirmation in your life. This identification is achieved by knowing that the power is within you and acknowledging that fact by saying, "I am eternal, immortal, universal, and infinite, and what I am is beautiful." In this manner, you lock into the power source and you are poised for the next step, which involves looking at its characteristics. It receives your energy and delivers diamonds or plain rocks, depending on what you put in. Living things express it more than do inanimate objects, but all have it. I FOLLOW THE ENERGY OF MY HIGHEST EVOLUTION AT ALL TIMES, AND SO BE IT. As you take that step, your perceptions expand gradually to accept a higher vibration of self, and you understand that what others believe is a part of their evolution, but it is not the sum total of all the facts. Your heart's desire can come from anywhere, so do not limit your field of expectation. He has to experience life for himself, as he also has unlimited power within him, and a part of his growth pattern is discovering that fact. It can deliver instantly, but if your energy is not all there, it will seem to you as if it has taken time. Know that this inner force is so powerful that it will pull you into excitement and adventure beyond your dreams. ✓I SEE ONLY BEAUTY IN ALL THE PEOPLE WHO ARE PULLED TO ME, AND WHAT I AM STRENGTHENS AND REFRESHES WHAT THEY ARE. But you cannot be half-hearted, or you will dissipate your personal power and nothing will happen. Moreover, it is a major part of each of us. It acts as your shield, and from time to time each day you should re-energize it by seeing it vibrant and strong, and by affirming that what you are is a part of the Living Spirit, or God, and that each moment of your life is one of exhilaration and learning. Let us say you want to win a large sum of money, give up your job, and spend the rest of your days lying in the sun. Finally, the Universal Law is in balance and harmony by its very nature. There is a dimension, right here on the earth plane, in which such a feat is possible, and there are a few people alive today who know of this dimension and use it. Before embarking on a miracle "action plan," you ought to spend some time meditating on the conditions or material objects you want. Life was flat. Finally, before setting out into the day, see the white light of the Living Spirit around you, protecting you and strengthening what you are. Each day at noon, a well-dressed old man came into the restaurant. Why? ✓I AM OPEN AT ALL TIMES TO COMMUNICATION FROM MY INNER SELF, AND THAT COMMUNICATION LEADS ME TO MY HIGHEST EVOLUTION. If you are pulled into interpersonal conflict, take a few minutes on your own to repair your energy, and before going out into the day, be sure that your energy is strong. ˘ You are not your body or your emotions or your mind. Why would I choose these circumstances of my life, this family, this society, and this neighborhood? Now, you may say: "That's nuts. Realize that the Universal Law has to deliver in the physical plane where you can make use of it. The more you work on your life, the more you accept responsibility, the more energy you will have, and the greater will be your expectations. This attachment, which you accepted at birth, is your main challenge in life, and your spiritual goal is to step above it. As you move into a situation, push your feeling into whatever lies ahead. There are no accidents or victims. Fundamental structures are being swept away in an avalanche of awareness, and we are no longer prepared just to read about great miracle-makers; we want to have the same experience. It states that no one enters the kingdom of heaven until he has tamed the dragon of negativity that he inherited from the collective unconscious. The Universal Law does not care whether you have your heart's desire or not. But these confines or boundaries are illusions. That is a part of the learning pattern, trial and error. Spend as much time as possible on your own. There is just energy -- one power that pervades all things, and everything is a part of the power. "What job is that?" asked my friend. The Universal Law manifests in you and through you. The more you trust it, the more the energy is encouraged to reveal itself, and various unusual things begin to occur. ✓WHAT I AM IS ETERNAL, IMMORTAL, UNIVERSAL, AND INFINITE. It will give you anything you believe in -- no more and no less. But your review will not be emotional. Write down in your own words nine affirmations that express your belief in yourself and your complete fulfillment in this lifetime. To work in films in England at that time, you had to have a union card. It is natural to yearn for the impossible and, in so doing, you establish strong beliefs about what can be done and what cannot. * STEP TWO Understanding Life's Mission We are not our bodies or our emotions or our minds or any of the structures and restrictions we experience around us. Solid objects appear as such only because their atoms and molecules move at high speed. Those are facts in the collective unconscious. Your mind would scan its memory banks and draw a blank, whereupon you might think, impossible. If you care for your power and you balance and center your life, no harm can befall you, and you enter into worlds that few people are even aware of. ˘ Miracles are not gifts from God, they are a part of what you are, which is God. No matter what your circumstances, the Universal Law can be called upon at any time because it is the real you. Consequently, we all have within us an unlimited power. You will find that you can use your feelings to guide you through life. Make your affirmations strong, be sure that you feel their power and that they mean something special to you. Your position on the earth plane as a miracle-maker is inherent in the infinite power that lies within you. My friend served him diligently, and over the months the two of them became friends. You have put the job on your miracle list, the Universal Law has opened a door, and you are halfway there! Here is what you do: 1) Continue to see your miracle coming into physical reality. Therefore, in order to achieve complete success, you have to work constantly on your mind's doubt. See the situation as flowing and positive. In desperation, they begin to pull on their unlimited power, and they realize that anything can be changed, that suffering is a product of the inner self, and, by looking at their inner selves, they can transform them. Suppose you have a special project in mind and you want to be sure that you have the maximum possible energy available. Do not let the mind "advise" you: it has limitations. We are an infinite part of the God Force using the physical form to experience spiritual development through a special teaching called "daily life." When you entered the earth plane, the energy that is the real you left its abode in the higher dimensions of pure light and entered, by choice, the body you are now in. Yet, each of them has a dimension that is many times deeper than is normally perceived, and those dimensions will open for you as you move toward them. c) Maintain silence. If you knew this in advance, you would begin to favor one course of action over another. From time to time, you may drift back, but once you decide on the side of strength, the power of the Universal Law will always be with you to varying degrees. Realize that the more you believe in yourself, the stronger the pull to him whether or not size 8 fits you. This rigidity does not allow for genius or for the understanding that we are now in an era of rapid unfoldment. It is very important to look at the negative feelings you have about yourself. You should have salads, fruits, natural healthy food, in sparing quantities. You cannot act negatively in one part of the Universal Law and expect the other part to deliver your miracles unaffected. He merely complies with your request. For most people, this is not possible because they are locked within the limitations of body and mind; their upbringing is so dominant that it encases their entire evolution, and they experience little spiritual growth, but you cannot judge others, because, since the energy your mind perceives does not incorporate the nature of their heroic goal, you have no way of knowing that what they are going through is not exactly what they need karmically for their growth at this infinite point in their evolution. ✓WHAT I AM IS BEAUTIFUL, AND I PULL TO ME THIS DAY ONLY BEAUTY AND REFRESHMENT. Therefore, you might as well make up your mind to collect. You have to realize that the power is within you, and once you take the first step toward it, whatever you create will be for your highest good. Often we feel we do not deserve success or wealth or complete health or anything else we might yearn for. What is the Universal Law saying to you? And so it should for you. These journeys have an inner reality and an outer manifestation in the physical, so anything you can conceive is actually a part of you right now. e) Be open to the inner promptings of the unlimited power source as it instructs you in ways of getting what you want. Each person is responsible for his own evolution. In effect, the union created a "closed shop." My friend's miracle was stuck! One day, out of the blue, he bumped into an old school friend who owned a restaurant, and due to his financial straits, he gladly accepted a job as a waiter. We are not taught either that the Universal Law has limitless potential or that this power is at our disposal and can be used to work miracles in our own lives. Two reasons: First, if your mind, feelings, and emotions knew the nature of your heroic goal in life, theirs would be no challenge or quest, and your evolution would suffer. I SEE ONLY BEAU AND STRENGTH EVERY MOMENT OF MY LIFE. Therefore, you cannot share your miracles with others until they happen. The Law does not discriminate. When you move into an energy alignment, you can never tell what will happen. Chop and change your list until you are comfortable with it, but be clear about what you want. If the order says "size 8," he sends out size 8. Then through enthusiasm and belief, you energize the Universal Law and encourage it to deliver. You are going to achieve your goal. But you could not get a union card unless you were working. It does not know of your heroic mission nor does it understand the Universal Law that interacts with your limitless potential. It was a book about a man's quest for the Universal Power, and it changed her life. Trying to fix your circumstances just physically or mentally will not work in the long run because deep-rooted inconsistencies will continue to surface in your life in various guises. When you are born, your thoughts and feelings are limitless because your mind is a clean slate. Each pulls to himself the circumstances experienced in life. Through feelings, you can enter into other worlds, and clairtiousness (a heightened sense of feelings) is a capacity you can learn to develop quite quickly. Events in your life gather energy as they come towards you, and you can feel that energy weeks and even years before they occur. Eventually, you realize that, in order to become part of a higher consciousness, you have to leave where you are right now and step into the unknown. To create something with absolute certainty, you have to establish the feeling within you that it has already happened -- that the condition you desire is already a part of your life. That is your karmic energy, and someday you will have to understand that it was not your highest path. It cannot discriminate. His miracle had been delivered. What a small child projects to the Universal Law is a natural purity unbounded by the constraints of beliefs. They are real and even more powerful than physical reality because they are not constrained by the limits of the material plane. SO BE IT. IF YOU ARE BORN WITH A UNION CARD, YOU CAN BE A MILLIONAIRE. It is as if billions of people who preceded you have determined what you are going to experience on the earth plane, and that is all there is to it. You can have anything you want, and when you create it, it becomes yours. If, however, making up your mind requires you to go through great trials and tribulations, you can be sure that that particular course is not the one for you. It will have a tendency to "advise" you logically from its own experience, and that logic is death to that part of you that is the miracle-maker. Infinite power is so magnanimous, so powerful, so much more than the mind, that it exists in a separate dimension, and that is why the mind has difficulty perceiving that it is even there. If you have harmed others, you have impeded your evolution by decelerating the life force within you. Evolution does not work that way. Create your day the way you want it: see it going well; see each person you meet as positive and open to your energy; see the day as harmonious and flowing; and see yourself evolving through each and every experience. Differentiation between good and evil is just your perception, for within real energy there is no judgment. Use your affirmations to keep that energy going. This pool of belief patterns or "collective unconscious," as Carl Jung called it, gains validity as it moves through time, and eventually the concepts that later generations experience as physical reality become rigid and domineering. It will willingly give you anything you believe in. The Universal Law is the shipping clerk waiting for your clear and concise order. It is not as acute as extrasensory sight, but it is deep and, through it, you enter into areas of perception that few people ever experience. This is not the case. You dream about the cash, and you sigh and say, "Wouldn't it be lovely." But is that actually what you want? Your affirmations act like small twigs in a fire. The Universal Law is impartial and unemotional. You would intellectualize yourself into positions or feelings that you wanted to achieve, and your mind would dominate your every move. To overcome something once and for all means going within yourself to discover the real causes of the disturbance. * STEP THREE Understanding the Nature of Beliefs The next step in creating your own miracles is to look at the nature of beliefs. As you work toward your miracle, watch for every sign, for every change around you, and you will see the Universal Law communicating with you. "Oh! It's pretty boring, really," replied the old man, "I am president of the film-maker union . . .not much even happens." Fifteen years later, I was flying across the United States lazily watching an "in flight" movie when, to my great delight, I saw my friend's name on the credits of a major film. A very dear friend was walking along a street one day wondering what to do with her life. Use yourself with the job granted until 72 hours before the interview, then forget about it. The currency with which you are going to pay for it is belief. f) Smile a lot -- the first miracle is on its way! * STEP FIVE Understanding Energy Since the mind has no way of knowing how the Universal Law is going to deliver your miracle, do not waste time trying to figure it out, just KNOW. Therefore, the key to understanding miracles is to look at the beliefs you express as thoughts and feelings. Your energy quickens, and opportunities pop up like corks on a lake. In fact, reality is both solid and not solid at the same time, and this applies to thought forms. Tell the Universal Law that you are ready and willing to accept the miracle you have been asking for. After a while, this exercise becomes simple and very accurate. It accepts whatever thoughts, feelings, and actions you project and reflects them back to you unemotionally in the form of events that you experience day to day. Realize that when things go well, it is solely because you put that image into the Universal Law as a shipping clerk in a large mail-order company. You cannot will the Universal Law on to others, saying, "I want this to happen to my friend." This would be infringing, because, not knowing the nature of your friend's heroic life plan, you are not entitled to change it or in any way alter what he is going through at this time. 2) On the day of your interview, rise early. Remind yourself that you are not your mind and you do not accept any energy contrary to your goals. If doubt creeps in, do not allow it to dominate for long. The fact that you do not have it on hand matters not. It is only later, through education, that they learn the confines of human expectancy. The nature of that goal is firmly written in the very deepest recesses of the inner you, and what you are today, no matter what you feel about yourself, is actually a part of that goal in various stages of completion. No matter what confronts you, no matter where you are right now, no matter what adversity you face, you will reach your objective. Your thoughts should be like acorns that develop gradually into oaks, if you dig them up to discover how things are going, your tree will perish. As you entered this dimension through birth, you had within you consciousness a heroic mission -- a goal. That is why all the tales of the path of the initiate talk about loneliness, for as you move away from old energy, there is a sense of loss. A good friend of mine wanted more than anything else to be a film director. * STEP SEVEN Understanding Your Personal Power In conclusion, we will discuss how to establish an energy of power around you. Whatever you create will have to be for yourself. But you cannot take them apart and analyze them. Each time you re-organize your list, spend a few moments thinking about how well your last miracles worked. You have to learn patience and keep moving toward your goal, knowing that your thought form will be manifest. As you watch your life, you become expert at reading symbols, and you see that you are the only one responsible for what you are and that everything around you expresses an energy. Shortly, she left that town and embarked on a whole new evolutionary path that, over a period of time, has taken her to great metaphysical heights and into countries and relationships she could not have conceived of before. The Universal Law reacts spastically to uncertain messages. Before we go to step four, the Miracle "Action Plan," let us briefly review some important points. It responds to the warmth of the sun, but it is not "in time." It develops from seed, expanding gradually to full maturity, and so it is with the Universal Law. ˘ Whatever you create for yourself by understanding the mystical, metaphysical aspects of the Universal Law is yours -because you created it, you deserve it. To harness the Universal Law effectively, you should watch its manifestation, which is basically every event in your life. Everything around you is energy -- your body, its various organs, your thoughts, the physical place you inhabit, the events of your life -- each expresses an energy. Yet, in our modern society, we are brought up to believe only in those things we can logically understand. Center on the feeling that that way, somehow, the Universal Law will not let you down, because everything in the universe is energy. ✓THERE IS NO REAL SIN, ONLY ENERGY. Figuratively, you will have to leave the earth plane even though you may still be very much a part of physical reality. Miracles are not logical, so the last thing you need is logical advice from the mind. ✓EACH ACTION I TAKE THIS DAY IS AN EXPRESSION OF THE GODFORCE. The clothes you wear: the things you say, the people you associate with, the foods you eat, and the places you go are all statements to the Universal Law of what you are. One day my friend asked the old man what he did for a living. There is high energy and not-so-high energy, and at the end of this life you will have the opportunity to review what you have achieved, which will be a matter of how much you have succeeded in centering your life in a discipline of perceiving the Living Spirit, and using it. Shoot for the moon, and be sure you leave nothing out. Let us look at feelings. First, there lies deep within all mankind an immense power and, second, the power is impartial and unemotional. It has no way of knowing what you want, nor does it discriminate between your hopes and aspirations, likes and dislikes -- it is pure energy. You affirm, "I am rich," and your mind contradicts, "You're not." The conflict that develops confines the Universal Law, which is about to deliver your heart's desire. A part of that energy is perceivable through the five senses, but most of it is beyond normal perception. But what if we told you of a man who could move his body many thousands of miles in just a few seconds? All scientific knowledge and current thinking are products of the same collective unconscious, and just the fact that a billion people have no concept of a man moving three thousand miles in a few seconds makes it impossible. A tree has no concept of time because its essence is eternal. Avoid interpersonal conflicts. We experience life through the five senses, "the windows of the soul," and we are taught what capacity those senses have. Whatever it is that you conceive is in a state of gradually becoming. Use exact and precise wording to describe the conditions you require. It is a matter of perception and belief. The words and feelings that you believe in have the strongest energy. * STEP SIX Understanding Time Within the Universal Law, there is no time. Start your miracle list with a couple of modest requests. When such advice is given, acknowledge the mind, thank it, and say, "I do not accept any energy that is contrary to the unlimited power that lies within me." then press on. You may not be able to see all the subtle energies around you, but you can learn to feel them, and soon you will find that information from the Universal Law has a way of jumping at you unexpectedly. She was at a crossroads literally and figuratively. In daily life, your feelings, thoughts, and attitudes are your order form, so before you decide to change your present conditions, you will have to be very sure what you want from life. Watch for signs, use your feelings to help you decide, and if, after that, you are still not sure, do NOTHING. I DO NOT JUDGE THE EVOLUTION OF OTHERS. You have to create them and let them fly. ˘ The Universal Law, or living Spirit, is unlimited. But the billions of people are wrong. WHAT THEY ARE RIGHT NOW IS FOR THEIR HIGHEST GOOD.
